The R.M.O's of the 2 big hospitals are, no doubt, the generally medical men of standing, but in view of the fact that the minimum pay of asst. surgeon is Rs. 120/, it seems desirable to adopt the rule that medical certificates granted by medical officers other than D.M.O's of Hospitals ~~surgeons~~ may be accepted. But why should such certificates be given by R.M.O's. The examn. of candidates for invalid pension is part of the business of District medical officers and I do not see why any part of this work should be transferred to R.M.O's. The opinion of the Med Dept may be invited -

Resident Medical Officers of the Victoria and the Krishnarajendra Hospitals cannot, as such, grant medical certificates of any kind except to patients treated or under treatment in those hospitals and such certificates ought to bear the countersignature of the Medical Officers in charge of the institutions and may be admitted for the purposes of the Service Regulations, as certificates granted by District Medical Officers.

From the linked file (S.& A.No.149 of 1919) it is seen that Government have ordered the acceptance of certificates granted by the Superintendent of the Minto Ophthalmic Hospital for purposes of retirement on account of eye diseases, without the countersignature of the District Medical Officer. Under similar circumstances, certificates granted by the Surgeon in charge of the Ophthalmic Department of the Krishnarajendra Hospital, may also be accepted without the countersignature of the District Medical Officer.
